Streets: All roads in Duval County displayed as lines, including data about the road name, street range, and other information.

Parks: Locations and associated information for parks within the City of Jacksonville. For more information visit JaxParks Homepage for the Parks, Recreation and Community Services Department.

Land Use: In general, a land use designation is given to describe the manner in which a property is permitted to be used, such as residential, commercial, or industrial. However, understanding and

interpreting the meaning of the Land Use designations is not simple or easy to absorb at a glance. As a result, these category definitions are typically used by specialists and professionals in the developer community. For more information please work with the Future Land Use Element (FLUE) document provided by the Planning and Development Department.

Zoning: Zoning District designations; see the Planning & Development Department site for more information.

Property:

Address Points: An aggregate list of all discovered addresses as points in Duval County sourced from the US Postal Service, Property Appraiser, and other sources. Each point is placed "on" the building as closely as time allowed during the 'build' of this file. On-going changes are made as requests come in.

Parcels: Official properties recognized by the Property Appraisers Office.
